

Life Sciences

Where life sciences and world-class medical logistics meet...

- **More than 96,000 jobs** in life sciences and healthcare
- A **location quotient of 1.27** for bioscience-related logistics and distribution

Long known as “America’s Aging Care Capital” due to the largest concentration of healthcare and aging care headquarters, Bourbon City is charting a new course in life sciences focused on **biopharma**, **med-tech manufacturing**, and **mission-critical diagnostics testing**.

Bolstered by our strategic geographic location and the strengths of UPS Healthcare’s Labport operations and overall time-sensitive and mission critical air cargo operations, Louisville is quickly becoming a national leader in life sciences.

- **More than 3 million square feet** of medically sensitive, temperature-controlled space at UPS Worldport and Labport.
- Home to **more than a dozen headquarters operations** related to healthcare and aging care.
- **Cutting-edge technology and time-sensitive logistics** operations allowed UPS Worldport at Louisville Muhammad Ali International Airport to lead the world in COVID-19 vaccine distribution.

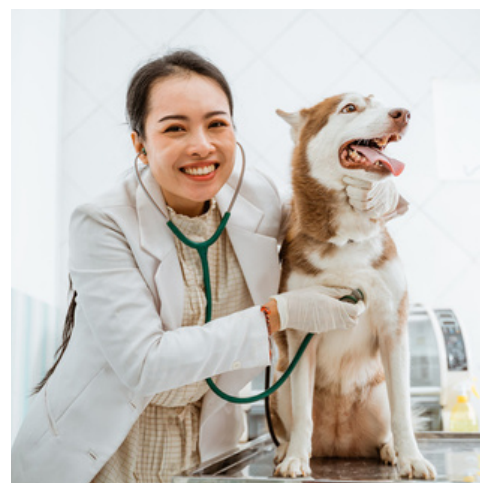

On Zoetis’s reference and diagnostic laboratory at UPS Labport:

“This new facility exemplifies our commitment to providing timely high-quality results that veterinarians can trust ... With real-time specimen tracking opportunities, reduced handling, and improved turnaround, our Louisville lab empowers clinicians to act quickly.

— **Abhay Nayak**, President, Zoetis”

Life Sciences

ONE LOUISVILLE

Imagine all the opportunities that would come from being in a city recognized as a global leader of your industry. As the home of the nation's largest concentration of aging care headquarters operations and UPS's largest Labport facility, Louisville is a knowledge center, a concentration of expertise and culture of innovation that has allowed companies like **Humana** and **Waystar** to thrive, and brought companies like **Zoetis**, **Medvantx**, **HealthTrackRx**, and **ScionHealth** to our city. Add **UPS Worldport's** unique medical logistics value proposition to that, and the possibilities are endless.

The future of healthcare delivery and life sciences is here.

In partnership with UPS Healthcare, life sciences companies can improve turnaround times with inbound deliveries as early as 1 a.m. and outbound pickups as late as 8 p.m. At UPS Labport, companies can leverage the end-of-runway advantage that only UPS Airlines can provide and over **100,000 sq. ft. of BSL-2 laboratory space** with 24/7 security, environmental controls, and bulk storage.

Louisville also boasts a robust health innovation startup scene that supports enterprises of all sizes. Groups like **Agging2.0**, **The Hive**, **University of Louisville Trager Institute** and **Republic Bank Foundation Optimal Aging Clinic**, and **The Thrive Center** continue to accelerate, incubate and showcase solutions for health and aging technology.

The **Health Innovation Alliance** is a unique consortium of leading CEOs from headquarter companies that collectively represent more than 100 million lives touched, \$150 billion in revenue, and 450,000 employees. This organization drives economic opportunity for small and mid-market companies while encouraging an "innovation through startups" culture.

ONE LOUISVILLE

One Louisville is a 501(c)(6) nonprofit organization and the official economic development organization and regional chamber of commerce for the Louisville, Kentucky region. One Louisville's mission is to accelerate economic growth across the Louisville region through new investment, talent development, and expanded opportunity for all.
